📔 Comments on the old exams.

Published 13. april 2015 by Schellewald, Christian

By intention we are not providing solutions to the old exams!

Some topics are not longer subject of the current course.

See course-material (Slides, Course webpage, Book) for relevant topics.

Any kind of answer to individual questions, that might be relevant for all, will appear on its-learning. (No individual hints will be given !!!)

The style and type of questions might completely change
in future exams !!!
